

## Building an online community for Airborne Wind Energy and for you.

Friendly, focused, free and independent.

### Join someAWE.org

Make some Airborne Wind Energy happen!  
Discuss about Airborne Wind Energy in a friendly but strictly on topic manner.

## someAWE.org offers

- ✓ A moderated forum with AWE topics that matter
- ✓ Free and independent AWE news
- ✓ Free and independent AWE information

### someAWE.org will be actively moderated-based on the following criteria:

- ✓ Civility is paramount - Treat others with respect, kindness and generosity.
- ✓ Strictly on topic - No discussion of anything other than AIRBORNE wind energy.
- ✓ Respect the laws of physics - No discussion of anything that would require the laws of physics to be changed or that requires technology that is not likely to be available in our lifetime.
- ✓ Share - Although someAWE.org is not limited to open source projects: open communication and publishing under an Open license is encouraged.

## Challenges

### Be a Hero, win a Hero!

someAWE.org organizes AWE challenges. We will make the winners world famous - and reward them with a GoPro HERO! The first Challenge is called 100\*3! Generate an average of 100W for 100 minutes at a minimum altitude of 100ft - with any AWE method that is not listed as "proven". See [someAWE.org/challenge](http://someAWE.org/challenge) for "proven" methods and a more detailed description of the AWE Challenge.
